MAY IS BIKE SAFETY MONTH

National Bike Safety Month is an opportunity to celebrate why we ride the bike and promote ways we can ride it more safely. Riding a bike can save time and money, preserve your health, and the health of the environment.

BIKE SAFETY TIPS

Below are a few tips for making sure that our sites and surrounding communities are safe for both bicyclists and the drivers who share the road with them. Following these tips helps us ensure a safe environment for bicyclists, drivers, and pedestrians.

- Always wear a helmet
- Always ride in the same direction as traffic
- Ride in a straight line. Don't weave in and out of parked cars
- If the lane is wide enough, share safely with cars. Do not share if the lane is too narrow
- When riding at night, always wear reflective clothes or lights on your bike
- Be aware when riding through four-way stops so that cars can see you approaching

BIKE SAFETY MONTH EVENTS

- Bike to Work Week: May 13–19
- Bike to Work Day: May 17

Always Think Safety

Safety matters

Happy Birthday

M&O Birthdays

May 2019

Carl Rider	Fidel Herrera
Art Robinson	Kenneth Donald
John Walker	Ruben Sanchez
Steve Perez	Ismael Tavarez
Isidro Sanchez	Jesse Romero
Ruben Garcia	Randy Morales
Janet Zarate	Jose Larios
Ramon Perez	Eric Loucks
Brian Pena	Lucia Montoya
Richard Mercado	

Do you know of someone who has done an exceptional job that is related to Safety & Compliance (S&C)?

If so, please email me their name and a short paragraph of how it's related to S&C. I would love to showcase them in the next issue
